

HOUSEHOLD HAZARDOUS WASTE COLLECTION EVENTS

Some of the products you use at home are potentially hazardous. Safe handling and proper disposal of these materials will protect you, your family and our environment.

The following materials require special handling and should be disposed of at a household hazardous waste collection event:

Acetone	Gasoline	Mercury	Rust Remover
Arsenic	Herbicides	Muriatic Acid	Solvents
Boric Acid	Hydrochloric Acid	Paint Stripper	Swimming Pool Chemicals
Chlordane	Insecticides	Paint Thinner	Turpentine
DDT	Kerosene	Paraquat	Varathane
Dieldrin	Lead	Paris Green	Wood Preservatives
Fertilizers (liquid)	Lighter Fluid	Pentachlorophenol	
Formaldehyde	Malathion	Photographic Chemicals	

COLLECTION DATES

Drop-off of household hazardous waste is by appointment, and is only for residents. Check the website below for scheduled dates and drop-off locations, as they may change. Call **(808) 768-3201** or email **householdhazardouswa@honolulu.gov** to schedule an appointment. Prepare an inventory list of your items, which includes the type of material you wish to dispose of and the container size (i.e. acetone - 2.0 quarts). Request for appointment must be made no later than one week prior to each event.
